

Enroll iOS Devices Into Forget Computers Management

Use these instructions to enroll your iPhone or iPad into Forget Computers's management system. These instructions are intended only for Forget Computers clients.

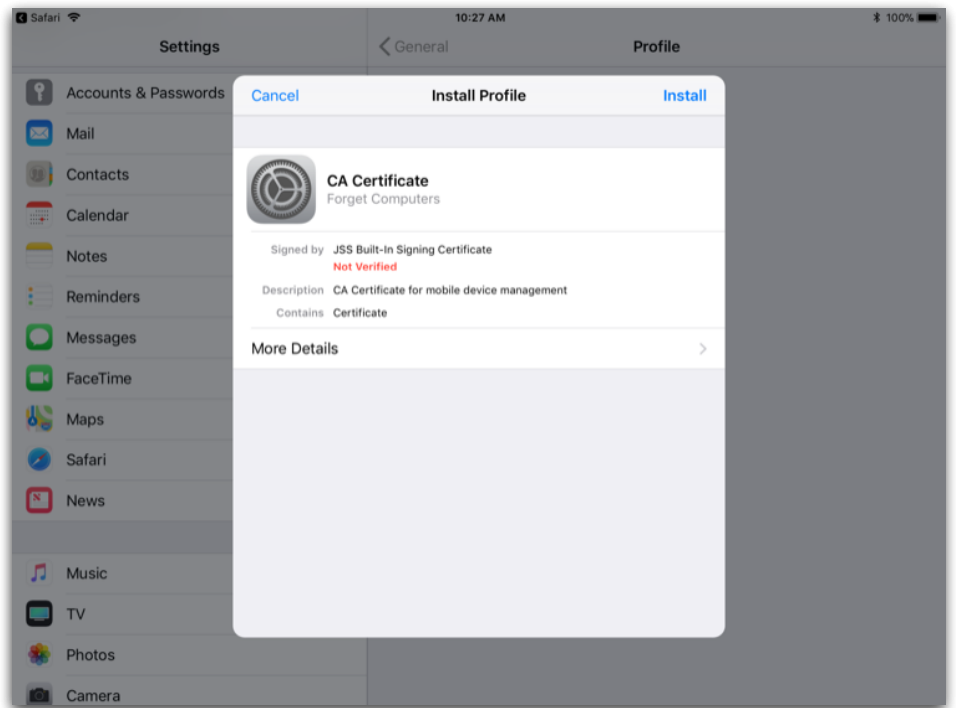

1. On the device open Safari
2. Navigate to the enrollment page:
<https://m2.robotcloud.net/fcios/enroll>
3. At the Enrollment Page, enter "enroll" for the username and password.
4. When prompted to Assign to user, click the *Enroll* button to skip to the next step. You *do not need* to assign your device to a site.

5. When prompted to install the CA certificate, click *Continue* button
6. Click *Allow* to open Settings

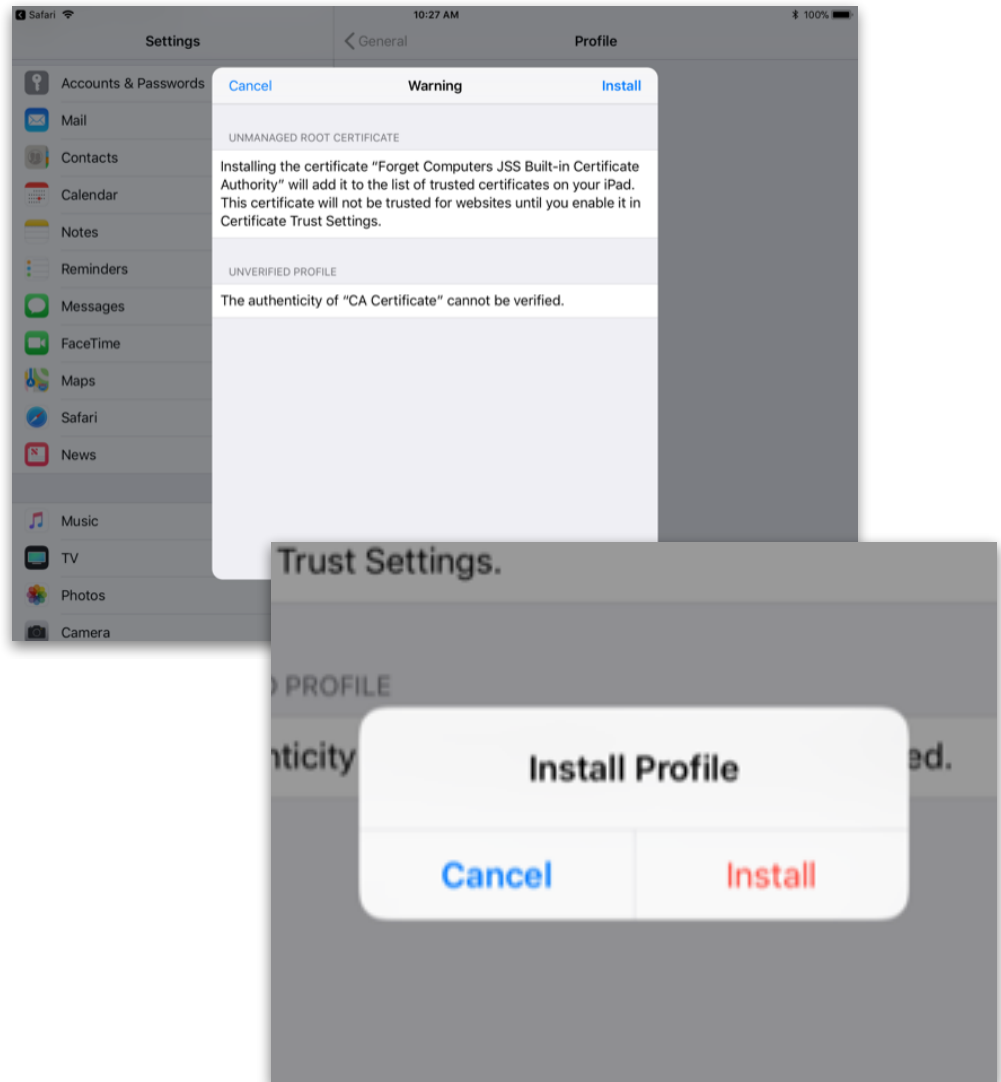

7. In Settings, install the Forget Computers CA Certificate by clicking *Install*.

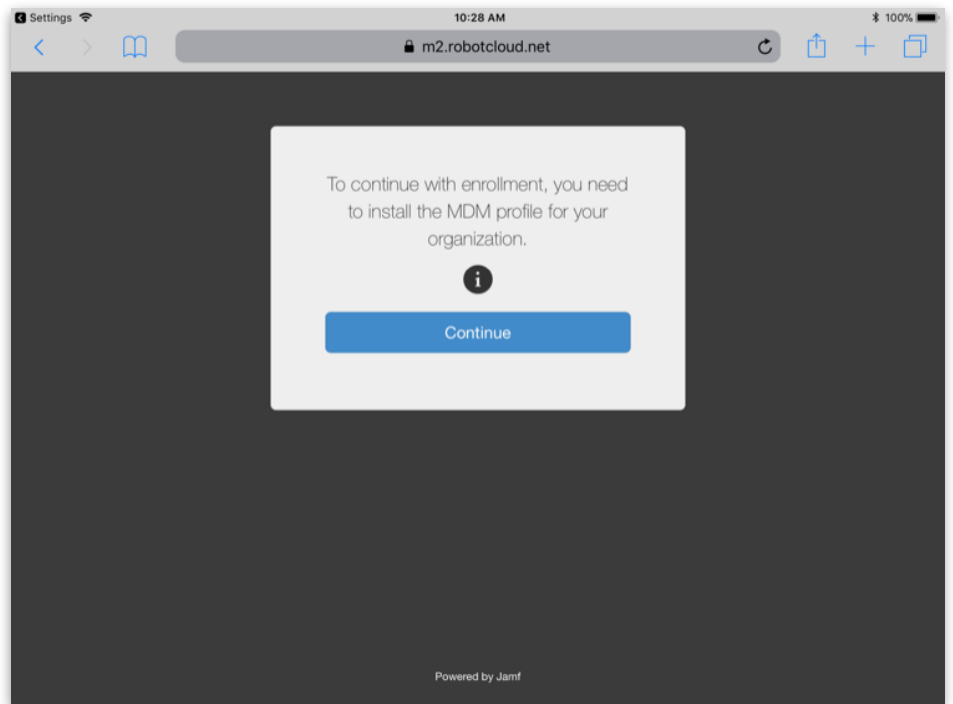

8. When prompted, enter the passcode for your device.

9. In the Warning dialog, click *Install*

10. When prompted by the Install Profile dialog, click *Install*

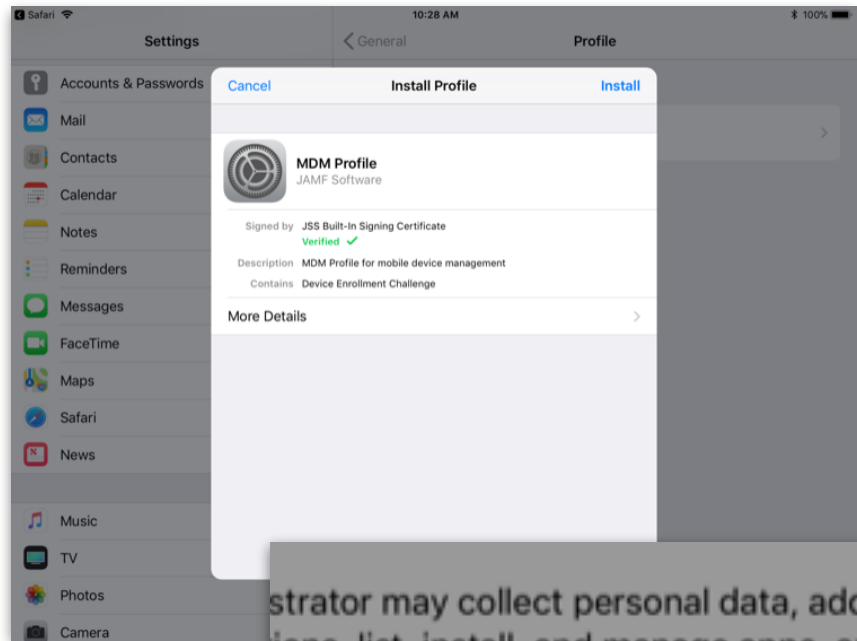

11. Your device should automatically switch back to Safari. In Safari, click *Continue* to install the MDM Profile.

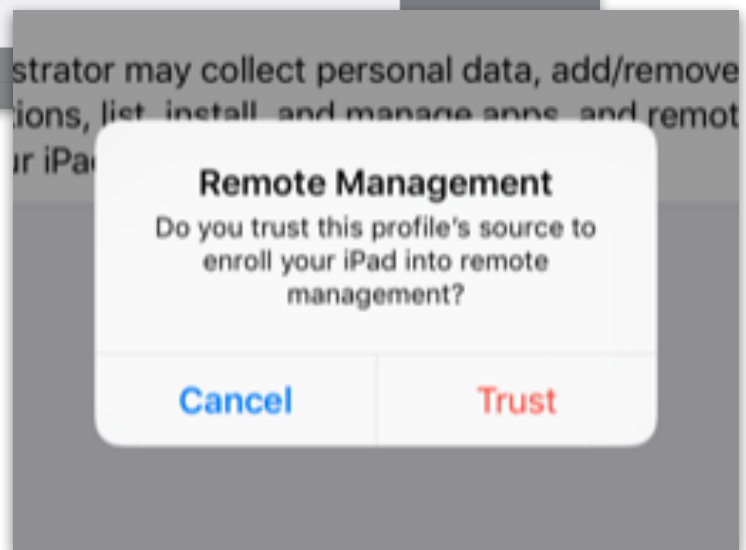

12. If prompted, click *Allow* to open Settings

13. In Settings install the JAMF Software MDM Profile by clicking *Install*.

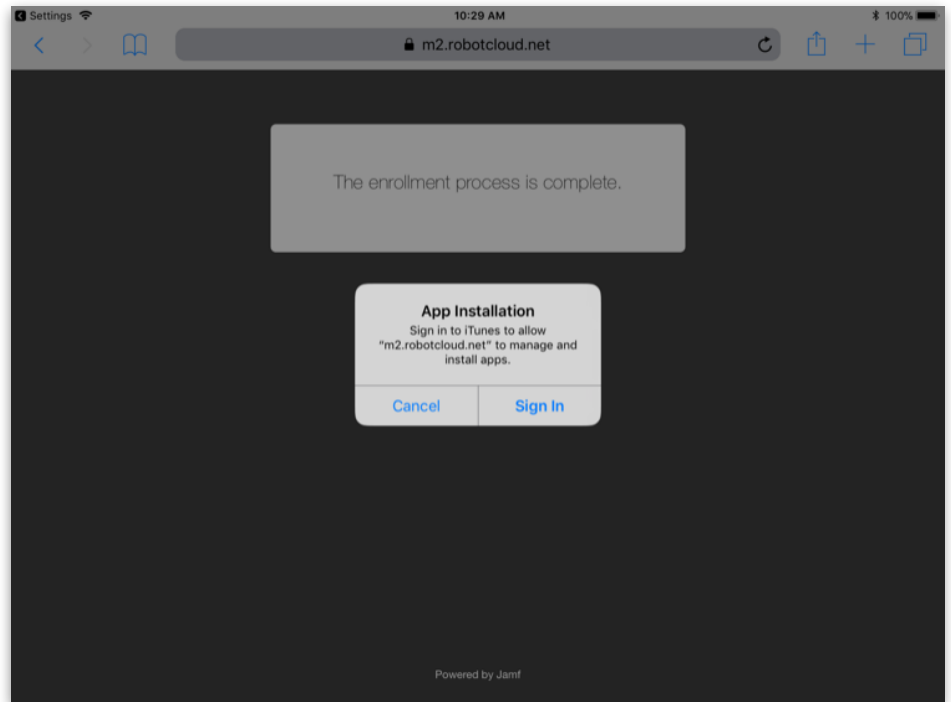

14. In the Warning dialog, click *Install*

15. When prompted by the Remote Management dialog, click *Trust*

16. Within a moment a new dialog should appear. This App Installation dialog is to approve installing the Self Service app. If you are not already signed into the App Store, follow the onscreen instructions to sign in. If you are already signed in, you will need to be notified that Self Service is being installed.

Your device should now be enrolled with Forget Computer's iOS management system.

To confirm, open Settings. In Settings, go to General and then navigate to Profiles & Device Management. There should be an MDM Profile and CA Certificate present for a successful enrollment.
